

IC-OMICS 2026
INTERNATIONAL CONFERENCE ON MULTI-OMICS IN LIFE SCIENCES

International Conference on Multi-Omics in Life Sciences 2026 (IC-OMICS 2026):

Partnership Opportunities

8-9 July 2026
Institut Teknologi Bandung
Jl. Ganesha No. 10
Bandung, Indonesia

Introduction

Advances in multi-omics technologies have enabled a more integrative understanding of complex biological systems by combining genomics, transcriptomics, proteomics, metabolomics, lipidomics, and phenomics. These approaches are increasingly essential in driving innovation across health, agriculture, bioindustry, and environmental sciences, supporting the development of sustainable and data-driven solutions.

Organized by the School of Life Sciences and Technology (SITH), Institut Teknologi Bandung (ITB), the International Conference on Multi-omics in Life Sciences serves as a global platform for researchers, industry leaders, and bioinformatics experts. Guided by the motto “Integrative Multi-omics for Sustainable Innovation in Health, Agriculture, Bioindustry and Environment,” the conference aims to foster interdisciplinary collaboration and accelerate the translation of multi-omics research into impactful applications.
